

Email as you know it will never be the same.

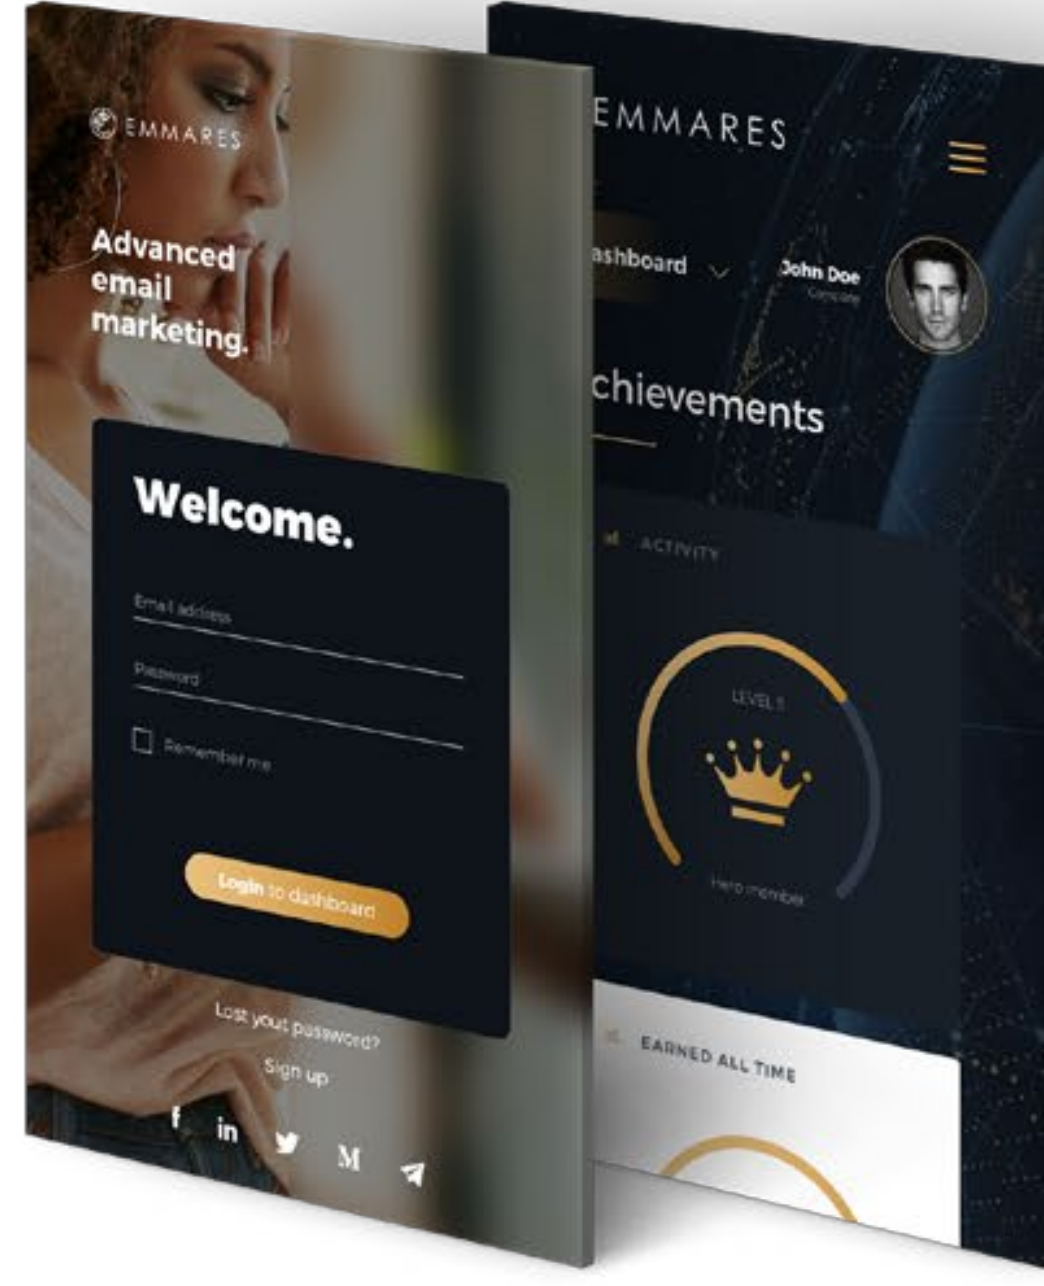

Imagine a world of e-mail without spam, only high quality targeted content.

About Emmares

Imagine a world of e-mail without spam, only high quality targeted content.

EMMARES connects high-quality email content with interested recipients. Through encouraging better quality content, lower frequency, and fairer content evaluation, EMMARES creates new values - a more targeted audience group for email marketers and less spam with only desired content for recipients.

How does it work?

While marketers send relevant and interesting content, and build their reputation as a quality sender, email recipients get tokens from a rewarding pool for evaluating email content.

Consequently bringing you a bright future of email marketing.

Our token

ICO start date: **May 5, 2018**

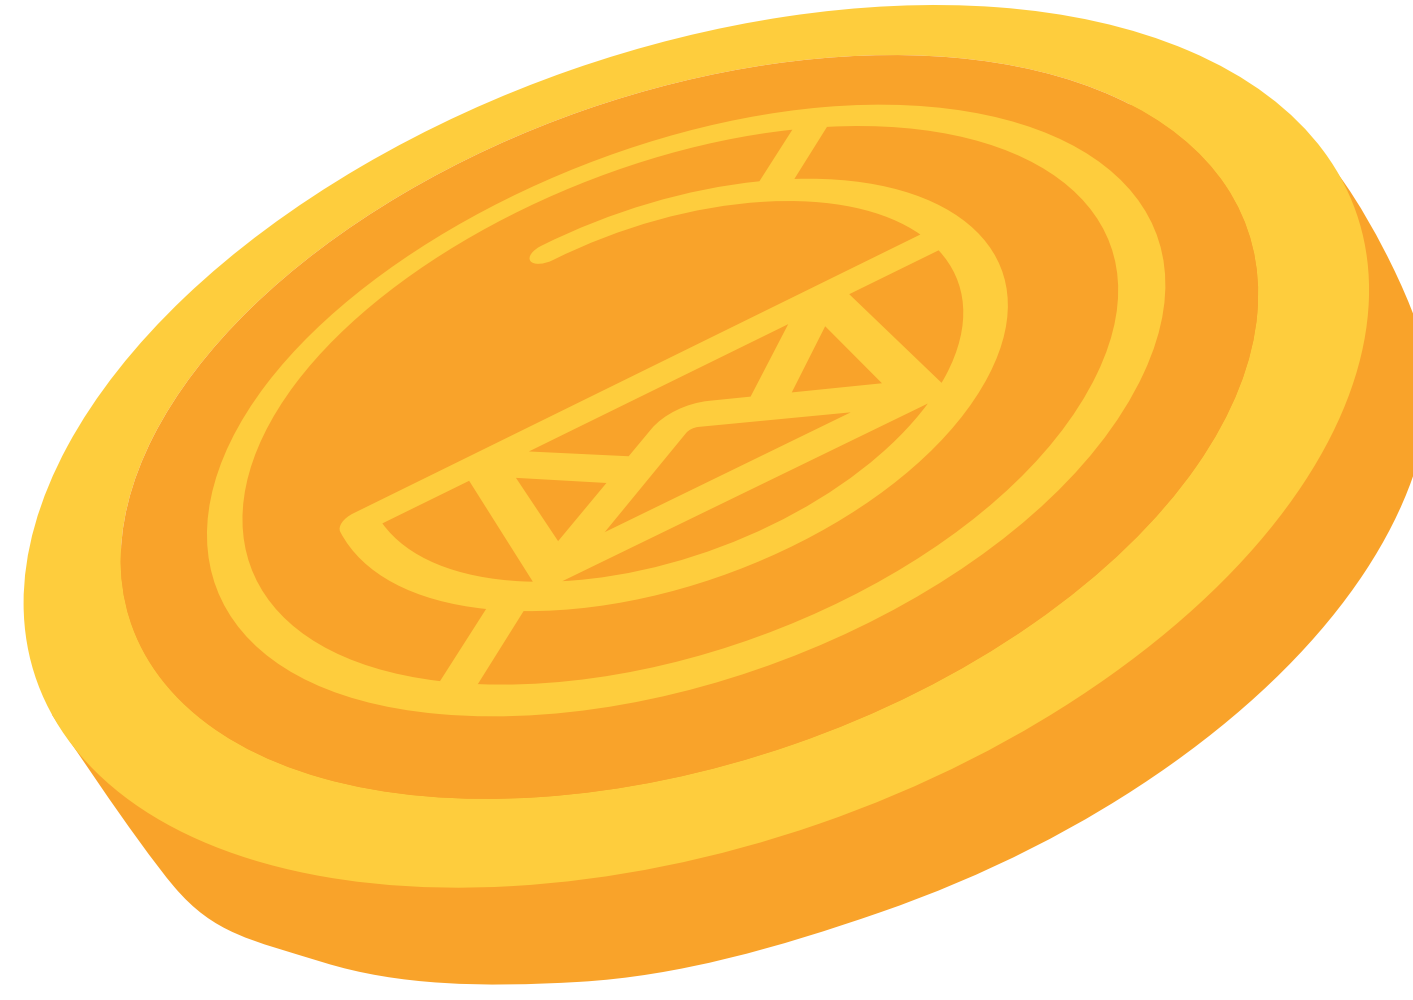

ICO price: **1 EMA = \$0.12**

Hard cap: **35.000 ETH**

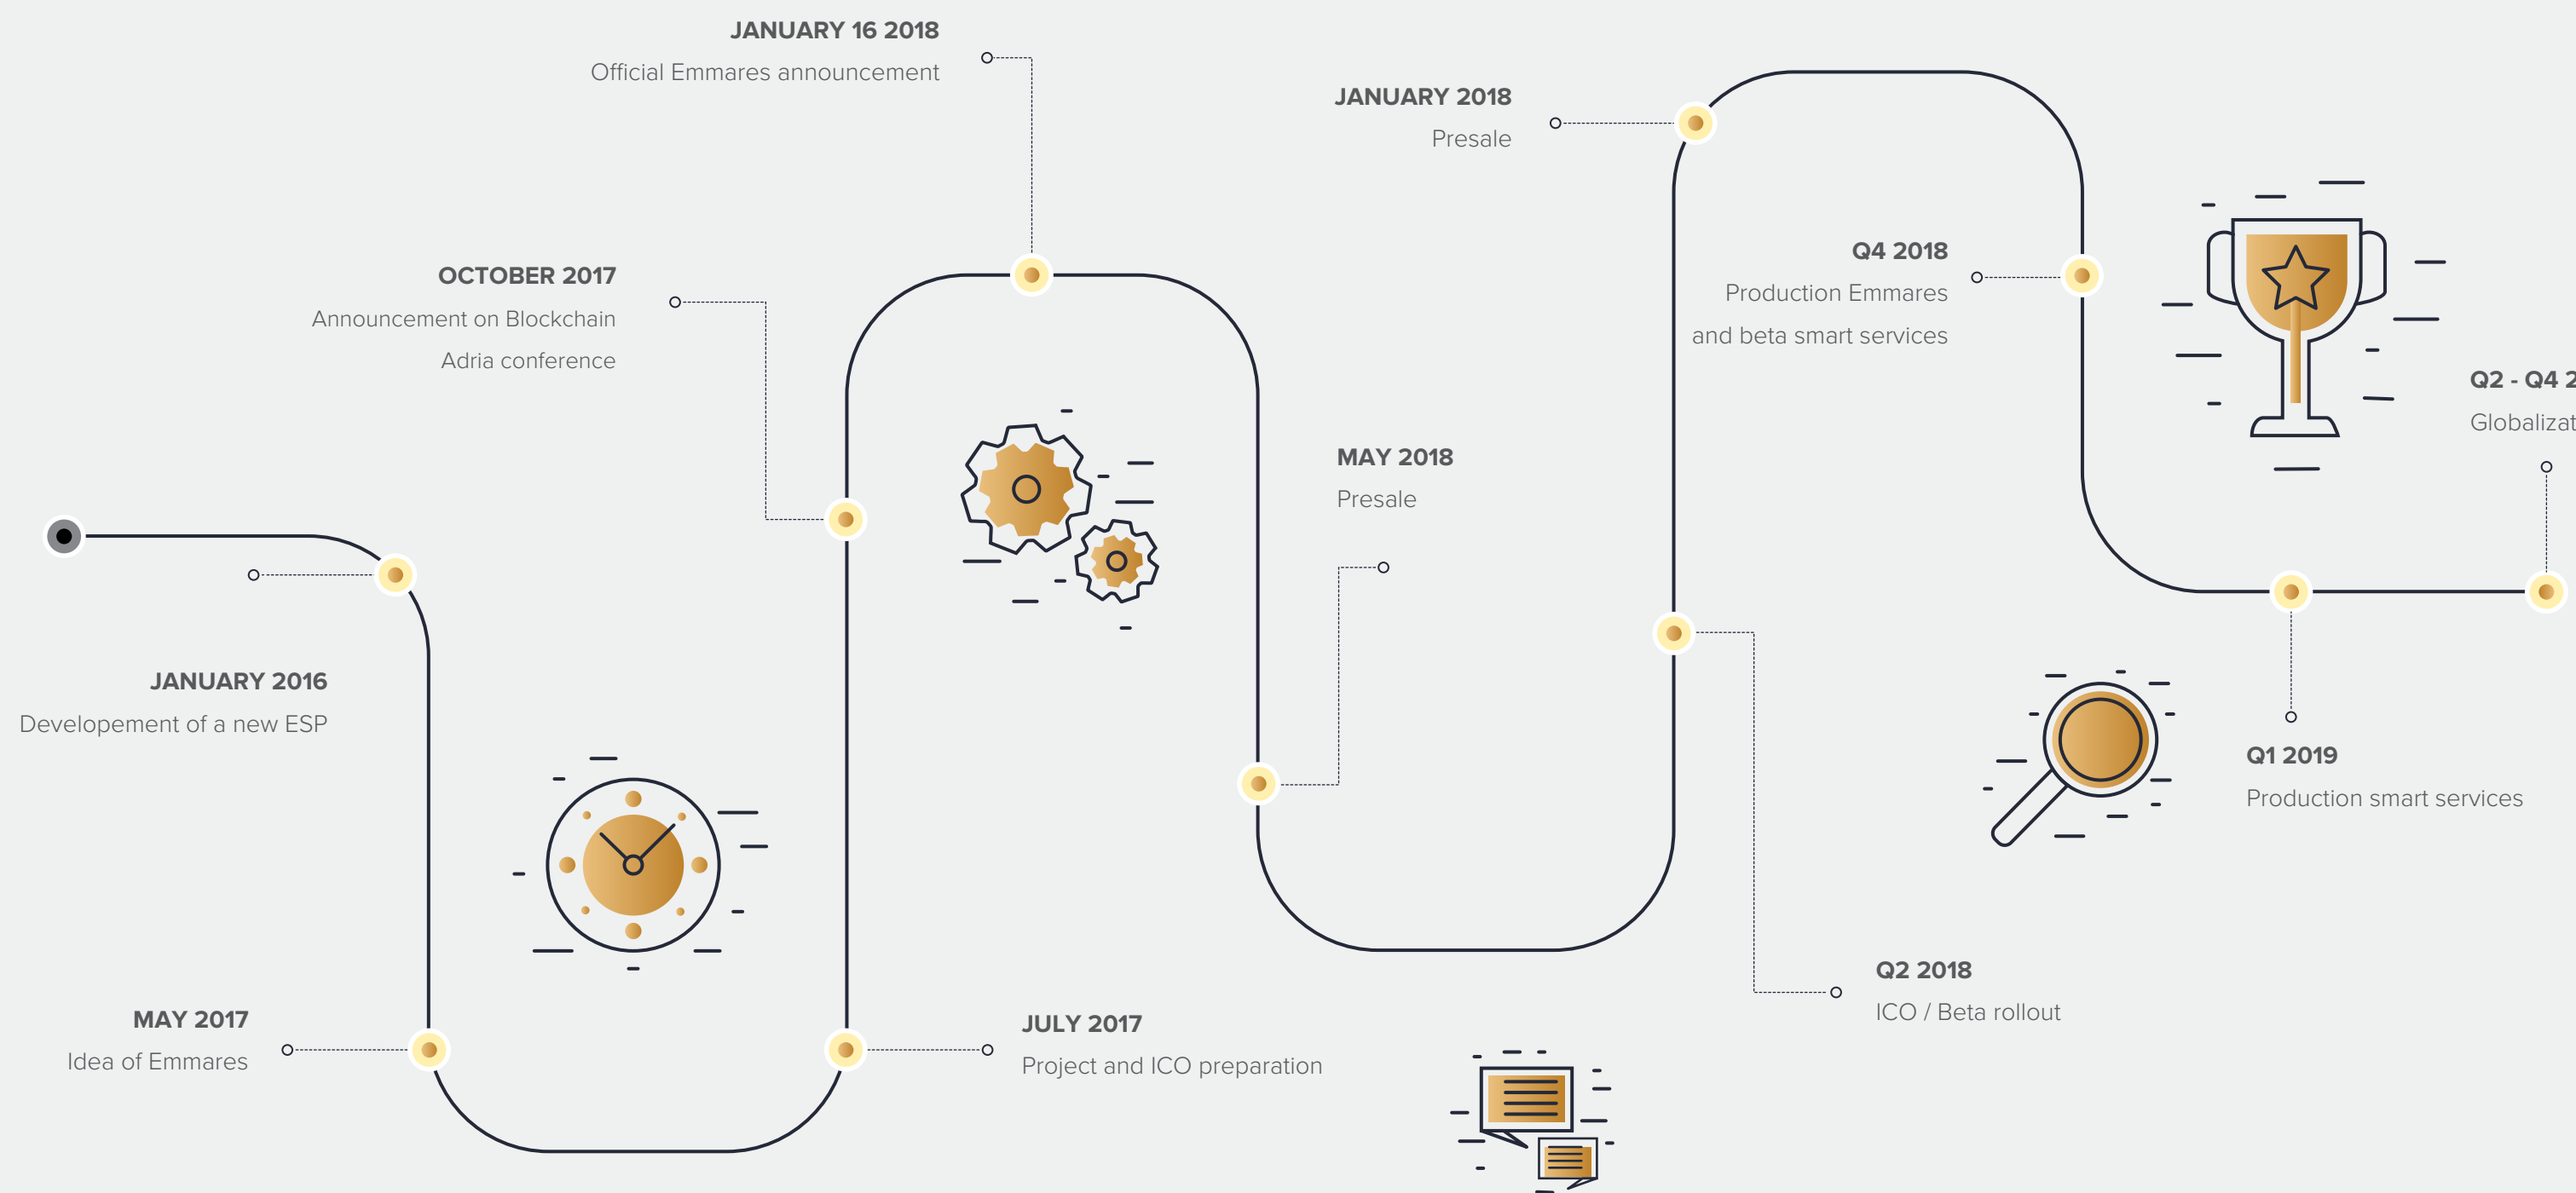

Soft cap: **2.000 ETH**

Accepted payment: **ETH, Altcoins, fiat**

Minimum investment: **0.1 ETH**

Roadmap

»We strongly believe that EMMARES is “the next big thing” and joining EMMARES now reminds me joining Google in early days.«

A world where every email is welcome.

Less spam.

Antispam services will be able to use our API for filtering spam messages and senders.

Quality control.

You will have the option to subscribe to emails with content that interests you.

Reach targeted customers.

As a relevant sender you will have the opportunity to reach more people interested in your content.

Get rewarded.

In return for email evaluation, you will be rewarded with EMA tokens.
